## Institute of Minimal Access Surgery Training

138-A, Vasundhara Colony, Tonk Road, Jaipur-18  
Ph.: 0141-2703851/52

### Course Outline

Endoscopic surgery has become an integral part of a Gynaecological surgeon's practice. Procedures like Laparoscopic Myomectomy, Laparoscopic Hysterectomy and Hysteroscopy are now a patient demand as also a surgeon preference. Patients want to recover faster and go back to work quickly. Every surgeon practicing today needs to understand the principles and fundamentals of endoscopic surgery in gynecology and avoid compromises and complications.

This Fifteen (15) day course on operative techniques in gynecological endoscopy encompasses an "all-in-one" approach to fulfill the dreams of any gynecological surgeon to practice safe laparoscopic and hysteroscopic surgical procedures.

**This is an advanced course with ample opportunities for hand on training.**

### Course Objectives

- ▶ To understand the basic anatomy of gynecological system.
- ▶ To understand basic principles of energy sources
- ▶ To gain proficiency in two-hand dissection and improve hand-eye co-ordination.
- ▶ To orient oneself with knot-tying and suturing.
- ▶ To review indications, technical details and short comings in laparoscopic gynaecology and hysteroscopy.
- ▶ To understand prevention and management of complications of various gynecological endoscopic procedures.
- ▶ This training is limited for 5 trainees per batch.

### Who Should Attend?

- Post graduate students.
- Practicing gynecologists, both junior as well as senior.
- **(Interested candidates may contact us so that individualized training may be arranged)**
